

Palmarium Academy Education Program

All of our training courses are designed to meet individual client requirements in line with their developing needs. Delivered by professional trainers, the programmes are highly participative with a balance between classroom training, individual and group work.

In addition to providing a comprehensive and robust number of programmes we specialise in helping busy organisations by providing our services both on your premises or away from the office at our brand new education facility. We believe that by taking the strain out of the setup and operation of your M3 development, we can leave you time to relax a little.

The Palmarium Academy provides your business with the skills it needs to develop, allowing you to improve your use of M3, developing at a pace which suits you and helping to ensure the security of your business for the future. Our skills base allows us to manage delivery in key business areas such as ...

- ✓ Discrete and Process Manufacturing
- ✓ Financial Operations
- ✓ Inventory & Resource Planning
- ✓ Supply Chain & Logistics
- ✓ Customer Service & Sales Operations
- ✓ Business re-engineering
- ✓ Productivity improvement
