

Business Health Check

Designed for organisations that wish to have an outside, expert, unbiased and completely confidential assessment of their M3 implementation and future potential. This is typically at the process level but can equally cover whole departments and inter-dependent groups within your team.

The benefit of a proactive Health Check comes from utilising professional business consultants to substantiate your own "gut feel" and to tap into experts who have the skill to see unique and enterprising solutions. The Business Health Check comprises an M3 MOT, comprehensive SWOT analysis and suggestions on areas for business improvement or opportunities to develop.

Our track record in delivering short term immediate projects and the more complex longer term programmes is impressive. Our skills base allows us to manage delivery in key business areas such as ...

- ✓ Discrete and Process Manufacturing
- ✓ Financial Operations
